## The Organisation

Aflatoun International is a non-profit organisation, which offers social, financial & entrepreneurship education to children and young people worldwide, empowering them to make a positive change for a more equitable world. Aflatoun creates high-quality curricula for different age groups, which are contextualized to local needs and circumstances, and are implemented by over 300 partner organizations in 101 countries. Aflatoun programmes inspire children to discover their talents and put them to use, to stand up for their rights and those of their communities through active learning and problem solving. They learn how to save, how to budget, and how to set up social and financial enterprises that benefit themselves, their families and their communities. Aflatoun has been recognized globally (Brookings, Harvard, HundrEd, Million Lives Club) for its high-impact, low-cost model, which has shown to be effective in changing behaviours of participants across the globe. By using a social franchise model, Aflatoun transfers curricular content, monitoring and evaluation tools, and training capacity to partner organisations, helping them enhance their existing expertise and create an efficient learning ecosystem. Aflatoun's programmes follow an active-learning, participant-centred methodology, which combines social and financial education (SFE) through engaging participants, educators, government institutions and civil society organisations.

## Position
