FOREWORD

2021 was another dramatic year for many children and youth around the world due to the COVID pandemic, with the educational provision and students’ learning continuing to be impacted globally. While in several regions schools reopened during the year in many countries schools remained closed or only reopened partly. Despite the challenging operating environment Aflatoun partners displayed resilience and flexibility in continuously adapting to a very unpredictable situation in most countries. This report shows that through their innovative approaches rooted and being rooted in the communities they continued to reach a significant number of children and youth, especially many living in vulnerable families and communities. Million of children and young people were reached by the Aflatoun partners with essential social and financial education.

2021 was also a year of transition for the organization. While continuing to support our partner network to cope with the consequences of the COVID pandemic, we were taking stock of the global strategy for 2016 - 2020 rollout. We used this period as a transition and organize a comprehensive consultation process to develop a new five-year strategy reflecting the priorities to effectively respond to current global issues and inequalities.

Today, children and youth worldwide continue to face many challenges. There are 700 million children living in monetary poor households. Approximately one-sixth of children of school-going age were already out of school before COVID-19, and the pandemic has significantly set back education systems, as the most vulnerable children and youth were not reached through online education. The number of school-aged children & adolescents trapped in emergencies and protracted crises in need of education support increased to 222 million. Millions of children are in labour, face child pregnancy and HIV. This goes along with high youth unemployment and limited financial inclusion exacerbated by the covid-19 pandemic. The climate crisis is affecting the safety and mental health of children and youth worldwide and, unless governments and communities worldwide radically shift gears, is likely to create dramatic climatic events further negatively affecting the lives of children and youth.

Therefore, the need to energise and empower our world’s 2.2 billion children and youth with essential social and financial skills is bigger than ever before. The global Covid-19 pandemic and climate crisis are likely to count children and youth among their hardest-hit victims and highlight the importance for them to have the social and financial skills to deal with the many challenges they will face. The world needs children and youth who possess socioemotional and financial skills, who are not only able to but who dare to think critically and act as agents of change in their own lives for a more equitable and sustainable world.

Aflatoun remains uniquely positioned to bring essential life and financial skills to children and youth worldwide. Education resources and training continue to be Aflatoun’s core strengths, constituting a solid platform upon which to further build important 21st century themes such as green skills and digital skills, to extend into digital education, and to provide educational content and materials to parents. Aflatoun’s global partner network is a source of innovation and testing ground for new SFE initiatives. A growing number of governments and multilateral agencies approach Aflatoun for support on their life skills and financial education curricula. Aflatoun’s rigorous research agenda offers a strong foundation for wider thought leadership. We hope that the many examples in this report will inspire and convince everyone to join the social & financial education movement!

The new 2022-2026 Global Strategy - Energising the Global Movement for Social & Financial Education - articulates how the network will further scale its efforts to ensure children and young people, especially the most vulnerable, access high-quality, inclusive, learner-centered social and financial education. Socially and financially empowered children and youth will have a higher chance of avoiding dropping out of school, teenage pregnancy, and being drawn into child labour, and they are more likely to be more climate-resilient and engage in dialogue with key stakeholders in their community to push for more sustainable development. We will continue our efforts following our new strategy and invite you to take a look at our innovations and outstanding examples from our global network partners from 2021.
Aflatoun International's mission is to socially and economically empower children and young people to make a positive change for a more equitable world. Aflatoun is not a typical NGO, employing the social franchise model, which has allowed the organisation to develop, roll out and replicate programmes through a partner network of 300+ organisations (including NGOs, CSOs, private sector and governments) who implement these programmes in over 100 countries. The dynamic, bottom-up network of interlinked partner organisations is based on reciprocal empowerment. It is a flexible low cost/high impact model with strong South-South cooperation, building resilience amongst children and youth.

We create high-quality curricula for different age groups, which can be contextualised to local needs or specific circumstances and realities. In addition, we provide educators with training and conduct research to evaluate the quality and effectiveness of our programmes.
ENERGISING THE GLOBAL MOVEMENT FOR SOCIAL AND FINANCIAL EDUCATION: NEW NETWORK STRATEGIC PLAN FOR 2022–2026

Fifteen years ago, we set the ball rolling on the importance of Social and Financial Education (SFE) and its interconnectivity to other development issues. While acceptance was very slow, our research and impact globally complemented our mission and uniquely positioned us to bring essential life and financial skills to children and youth worldwide.

The success of the applicability of SFE in areas of Education, Health, Employment and Financial Inclusion fortuitously created a new ambitious 5-year strategic plan to change the current status quo and scale up our success. The voices of children, our partners, and our stakeholders were at the centre of building our strategy for 2022–2026.

CENTRAL ASPIRATION FOR 2030

To ensure that future generations of children are empowered by ensuring that SFE becomes included in the post-2030 social development goals.

These objectives are complemented by three cross-cutting enablers:

- BUILD A WORLD-CLASS ORGANISATION TO SUPPORT THE GROWTH OF THE GLOBAL NETWORK
- DIVERSIFY OUR SOURCES OF FUNDING TO ACHIEVE FINANCIAL SUSTAINABILITY
- ROLL OUT A GLOBALLY ENDORSED BRAND
OUR THEORY OF CHANGE

1. More Teachers Trained & Certified
3. Innovative On & Off-line Delivery for Most Vulnerable Girls & Boys
4. Financial Inclusion for Girls & Boys

SYSTMS IMPACT

Social & Financial Education Integrated in more National/Local Systems
Vibrant Partnership Networks have grown [local/regional/global]
Multi- & Bilateral agencies, Funders, initiatives, Increase support for SFE

SYSTMS OUTCOMES

Engaged Stakeholders

Children & Young People / Parents
CSO/NGO Sector
Private Sector

Strategic Enablers
- Building world-class organization
- Develop diverse Business model
- Build globally embedded branding

Strategic Objectives 2022-2025
- Inclusive & responsive education resources through different delivery models
- Ignite and grow the Global Aflatoun Network
- Drive bold thought leadership in a turbulent [post-Covid] world

Aflatoun Outputs

Quality Education Resources Developed
Stakeholders Capacity Built
Evidence Increased
Increased awareness through Advocacy

VISION

Socially & Economically Empowered Children & Young People who act as agents of change in their own lives for a more equitable and sustainable world

Sustainable Development Goals*

1. No Poverty
2. Zero Hunger
3. Good Health & Well-being
4. Quality Education
5. Gender Equality
6. Clean Water & Sanitation
7. Affordable & Clean Energy
8. Decent Work & Economic Growth
9. Industry, Innovation & Infrastructure
10. Reduced Inequalities
11. Sustainable Cities & Communities
12. Responsible Consumption & Production
13. Climate Action
14. Life below Water
15. Life on Land

I am a Change Maker / I stay in School Longer / I have enough resources / I apply my capabilities / I make my own choices / I eat along with others / I care for the environment / I am happy

I am socially empowered
I am economically empowered

Child Level Impact

Personal Exploration
Rights & Responsibilities
Saving & Spending
Planning & Budgeting
Social & Financial Enterprise

Curriculum Output

Behavioral Outcomes

*Central ambition 2030: Future generations of children and youth are empowered by the inclusion of social and financial education in the post-2015 sustainable development goals.
In 2021, Aflatoun kept growing its network.

Aflatoun collects information on the number of children and youth reached through an Annual Coverage Survey which is completed by the Aflatoun Network Partners and selected Governments who have worked with Aflatoun on integrating social and financial education into their public education curricula (national Integration).

In the past, we presented the number of children reached through the NGO network partners and Governments combined. The new Strategic Plan 2022–2026 – Ignite and grow the global Aflatoun network – has two specific sub-strategies: (i) in order to scale there is a focus on integration of Aflatoun’s CSFE content and tools into Government curricula (‘systems-change’ approach/national integration); and (ii) to ensure we reach the most vulnerable children the Aflatoun Partner Network prioritizes the most excluded (NGO programmes). These approaches are quite different, but complementary. Therefore, we will start reporting on the number of children and youth reached through the two approaches separately.

During 2021 the Aflatoun partner network reached 3.2 million children (5.3 million in 2020).

The number of children reached through ‘National Integration’ was 29.5 million (2.3 million in 2020).

These coverage numbers for 2021 form the baseline from which we will assess the goals of the 2022–2026 Strategic Plan.

Despite the challenging operating environment due to the pandemic partners displayed resilience and flexibility in continuously adapting to a very unpredictable situation in most countries. Through their innovative approaches rooted and being rooted in the communities they still reached millions of children and young people.

GLOBAL RECOGNITION

Our innovative approach was recognised by HundrED in its Global Collection of Leading Innovations in K12 education. We were also ranked 23rd among the Top global NGOs by NGO Advisor.

Education is meant to prepare children for the future and Aflatoun International innovation on financial education is just doing that. Its a wonder innovation indeed as it gives exactly what is required to build a business mindset.

- Hundred academy member

HIGHLIGHTS OF 2021

In 2021, Aflatoun kept growing its network.

NUMBER OF CHILDREN & YOUTH REACHED IN 2021

29.5 MILLION CHILDREN reached through ‘National Integration’

3.2 MILLION CHILDREN reached through the partner network

1.2.4 Build partnerships towards national integration in 60 countries
2. 2.3 Grow the partner network to 600 partners prioritising vulnerable groups
Every year during Global Money Week, we celebrate Social and Financial Education together with millions of children and youth across the globe. Last year, was shadowed by the global pandemic, and hundreds of millions of children and young people were out of school. We used the occasion to listen to the voices of youth as they go through this unprecedented time and renewed our commitment of empowering them which is a key principle of the UN convention on the rights of a child. Together with our partners, we organized a series of consultation calls with children and young people from more than 40 countries. The youth openly spoke about how the COVID-19 pandemic affected their lives and shared their coping mechanisms. There were three recurring themes.

Children were calling for the re-opening of schools and, if not possible, for providing real working solutions for distance learning.

They were asking help to reduce their anxiety, as they missed their usual support from their friends and peers (mental health).

They were concerned about the socio-economic situation of their parents and caregivers that also impacted their own future; the financial situation at home hampered their access to quality and relevant education that will let them develop the skills needed to successfully transition from childhood to adulthood.

Covid-19 exacerbated the already existing challenges faced globally and we found it crucial to inspire our Global Partner Network, share the best practices and solutions in providing SFE during the pandemic. Prior to the Global Money Week, we launched the first Partners Resilience Challenge for partners to share their outstanding stories about how they are reaching the world’s most needy children and young people as the pandemic unfolded through social and financial education. We received over 60 submissions from all the regions and highlighted the most inspiring stories and creative solutions during an Online Awards Ceremony that brought together hundreds of people from across the globe.

**TOP 3 Awardees of the Partners Resilience Challenge:**

- Childfund international in Indonesia - IPPA
- Coop-aspire Dominican Republic
- Fesen Togo

**Special Award for the most creative production** - Wona Sanana, Mozambique
THOUGHT LEADERSHIP

Over the next five years, Aflatoun International aims to put gender- and climate crisis-responsive Social and Financial Education (SFE) that is inclusive of the most vulnerable on the global and regional post-2030 international development agenda. Aflatoun will lead policy and research thinking in the field by launching a comprehensive 2030 SFE research and learning agenda, an annual flagship “State of the Field” report presenting the latest research, good practices, and innovations, and a new SFE Award.

In 2021, we continuously monitored and evaluated the impact of our programmes around the world as well as broadly the financial education and life skills on the lives of youth worldwide. In 2021, we launched several impact evaluations including in Zimbabwe, Mozambique, Cote d’Ivoire, Burkina Faso, China, Philippines.

FINANCIAL EDUCATION FOR PARENTS: GLOBAL REVIEW

To accelerate financial education as a driver of the SDGs, Aflatoun collaborated with Generali/The Human Safety Net on a review of Financial Education for parents. Insights from the report reveal that, including Financial Education into parenting programmes can effectively support parents to more adequately care for and raise their children. Through a review of 25 parenting programmes from 20 countries which included a Financial Education component we assessed the interventions on their impact, characteristics, content, and delivery approaches. The report provides some conclusions on the implications for the design of future Early Childhood Development parenting programmes with a Financial Education component and identifies areas for additional research.

AFI FINANCIAL EDUCATION PROGRAMS MONITORING & EVALUATION TOOLKIT

Aflatoun supported the Alliance for Financial Inclusion (AFI) to develop a Financial Education M&E toolkit. It aims to assist in setting up a system to facilitate management and documentation of evidence on the effectiveness of Financial Education Programmes. The toolkit provides a step-by-step guide on how to achieve this goal, describing what should be done, why it should be done and how to do it.

“MOST SIGNIFICANT CHANGE APPROACH” – AFLETTEEN+

As part of the Scaling Quality Life Skills and Financial Education for Adolescent Girls Project (Echidna Giving 2018-2022) which aims to enhance the dissemination, implementation, and learning outcomes of AFletteen+ we conducted an evaluation. Using the “Most Significant Change Approach” we evaluated AFletteen+ in Peru, Vietnam, Pakistan, and Ghana. The findings showed that Aflatoun’s LSFE classes are strongly associated with significant positive changes in adolescent attitudes towards their rights and responsibilities, regardless of the country contexts. The lessons also play a significant role in the development of self-efficacy, self-confidence, future orientation and optimism, savings behavior, and entrepreneurial knowledge of adolescent girls. Furthermore, results point to causal relationships between different LSFE domains. Future orientation and optimism and employment planning appear interconnected; civic engagement, transferable skills and importance of inclusive decisions have common patterns; entrepreneurial knowledge and social enterprise behavior as well as saving and spending behavior, and financial literacy also show common patterns. Adolescents can make connections between life skills and financial education and how these can apply to their current and future lives. They view LSFE as contributing to significant changes in their knowledge, attitudes, and behavior regarding their social and financial lives. It should be noted however, that qualitative results illustrating individual adolescent changes may not allow for drawing general, linear causal conclusions, and may require deeper qualitative and quantitative research to arrive at firmer generalizations.
ADVANCING DIGITAL LEARNING FOR GIRLS: BUILDING ON BEST PRACTICES FROM THE EMPOWERMENT FOR GIRLS EDUCATION (EGE) PROJECT IN UGANDA

The digitization of education has been a much discussed topic at global platforms highlighting its importance. While the benefits are promising, there is however a question on how this can be implemented and contextualized to local settings. In collaboration with the Education Development Network (PEDN), Aflatoun conducted a study to understand how access to, and the use of, digital learning content and tools contributes to the social and economic empowerment of girls in the EGE program. Funded by Opportunity International and the Department for International Development (DFID), insights from the study reveals that students, teachers, as well as NGOs and the government do not yet have a common understanding on what, and how, to fully integrate digital learning into the classrooms. As a consequence, its use and implementation are still a challenge in the school system and in the daily life of students and teachers. The reports highlights the need for partnerships between public and private sectors to help address the infrastructural issues so schools have the necessary facilities, devices and relevant content to deliver on digital learning.

OPENING (NEW) HORIZONS IN EDUCATION INNOVATIONS

The past 2 years were characterized by a complete shift in education systems across the globe: the schools were closed, and this affected those who are out of formal education track. The need for creative solutions was urgent. Digital education has become essential, yet it was important for us to innovate for those who do not have connectivity. It was also important for us to ensure that educators are equipped with necessary skills to adapt digital/blended learning approaches in their teaching.

SELF-DIRECTED ONLINE LEARNING MODULES (LIFE SKILLS AND FINANCIAL LITERACY) FOR ADOLESCENTS (13-17) AND YOUNG ADULTS (18-24)

In 2021, we continued to develop online modules on life skills and financial literacy for adolescents and adults. The modules can be integrated to any digital course and are based on Aflatoun’s methodology. Topics in the domain of Social and Financial Education such as gender and diversity, sexual and reproductive health rights, mental health, as well digital finance, smart finance, business, and sustainable development could be discovered in the online module.
GAME-BASED LEARNING

In 2021, we worked with MeemAin and Solve Education to integrate our curricula into game-based learning. We worked together with MeemAin on the development of “Malee”. The goal of the financial literacy game is to provide an efficient digital tool to raise awareness and measure the knowledge of financial literacy among children. The partnership’s ultimate goal is to scale-up “Malee” to reach out to an estimated 20,000 children in Arabic and other countries using the Aflatoun tools. We also launched the ‘Employability Module’ on the mobile and desktop game developed by Solve Education!, Dawn of Civilization. This module was part of Aflatoun’s latest effort to accelerate digital learning development and diversify the availability of its curriculum. The game is used in several countries in South East Asia and Nigeria.

“This [Dawn of Civilization] game is really educational, [...] it’s not boring because there are lots of plays, and it’s based on education, it’s more like sharpening your brain, using logic [...]. This is suitable for today’s children. Instead of being busy playing outside or playing [with] gadgets, playing these games is more useful, because they are educational”.

A beneficiary of the game from ChildFund Indonesia
ADAPTING TO CHANGE WITH ONLINE TEACHING METHODOLOGIES

In 2021, we continued to strengthen our online training capacities. In total, we conducted over 50 online trainings through the Aflatoun Digital platform and trained over 1,000 teachers, educators, and trainers. Using the training platform, we trained a broad range of stakeholders, for example World Food Programme & UNICEF offices in the Middle East & North Africa and the National Confederation of Cooperatives and its local coops in the Philippines.

FINANCIAL HEALTH AND WELLBEING FOR TEACHERS (OLD MUTUAL – AFRICA’S BIGGEST CLASSROOM)

We developed and delivered a teacher-training programme for 160 teachers in Mpumalanga, South Africa: Understanding and Teaching Financial Concepts in Grade 12 Math Literacy. The training was organised with Mpumalanga Department of Education. In addition, we developed a gamified formative assessment to assess the objectives of learning materials.

DIGITIZING THE TRAINING OF TRAINERS (TOT) FOR LIFE SKILLS BASED EXTRACURRICULAR ACTIVITIES

In collaboration with UNICEF, we developed an interactive digital training course on life skills based extracurricular activities in Egypt. Structured to last for about 3-5 hours, the self-directed e-learning content for trainers covers the training context of the Life Skills and Citizenship Education programme, facilitation skills, and active learning methods.

SCHOOLBANK

We updated the Aflatoun SchoolBank Financial Education supplement by adding themes such as digital finance, consumer responsibilities, and protection from fraud. The SchoolBank program empowers youth by combining quality financial education with safe & responsible access to basic financial services (such as saving and/ or payment facilities), thus teaching young people about personal money management, saving and financial responsibility.
In 2021, the effects of the Covid-19 pandemic created chaos around the globe. The majority of partners (53%) had to reduce the most of their programmes or stop them entirely during the year (see Figure 1). Despite the challenging times, our partners kept making unparalleled efforts to deliver social and financial education through different innovative methods. Actually, only 18% delivered their regular Aflatoun programmes as usual. A large group of partners adapted by practicing social distancing, but still met physically in same space (42%). And 27% used distance learning (radio/tv/phone/computer) approaches.

In our 2022-2026 Strategy we identified the need to harness the power of the global network by giving partners and children a stronger voice, decentralising certain activities by creating regional liaisons, boosting our platforms for exchange between partners and other key stakeholders, as well as reinforcing our capacity building for partners. The recruitment of eight (sub) regional coordinators who will be based in each of the six regions will further strengthen the network.

**Figure 1**

During 2021, we organised a large number of capacity building and network sharing events across the 6 regions we work in.

Due to ongoing travel restrictions, the core part of Aflatoun’s trainings by the secretariat was conducted online or through a blended approach. Every region organised a series of regional events. Overall, we held 59 regional meetings. Several special events were also organised to discuss current issues like financial inclusion, digital learning and dissemination of new curricula. Special meetings were also organised to consult partners on the new strategy. Overall, 60% of partners reported that they had participated in one or more capacity building activities during 2021, including online. The majority of partners (57%) also reported in the annual survey that they had used the online Aflatoun Partner Platform in 2021. Among the users, the large majority reported that they were satisfied with the Partner Platform (53% satisfied / 31% very satisfied).

“It has been a significant experience. Reconnecting in times of pandemic allows us to recognize the valuable work we do for the rights of children and adolescents as part of the Aflatoun community. Now more than ever the educational community needs pedagogical resources to work with hope.”

Asia Facilitator
THE AMERICAS

There are 45 Aflatoun partners implementing Aflatoun programmes operating in 16 countries in the region.

In June 2021, together with hosting partner Fundación EDUCA México we held a series of events as part of the regional meeting. Apart from the main regional meeting for the partner network in the region, we held The EDUCA Ahorra y Emprende Fair and Entrepreneurship Bootcamp. During these events, Aflatoun students shared their entrepreneurial experiences as well as participated in a two-day training on the design and execution of social and financial projects at an advanced level.

Together with the UNDP Paraguay, we developed the ‘Reference Guide for Women Entrepreneurs’ for the Central Bank of Paraguay, within the framework of the Financial Inclusion Strategy of Paraguay. The publication aims to guide women who are starting their ventures and contribute to their social and economic empowerment.

We officially launched our AflaYouth curriculum in the region. This initiative was supported by global logistics provider Agility and our partner Gloria de Kriete Foundation (El Salvador).

PARTNER SPOTLIGHT:
Coop-ASPIRE (the Dominican Republic)
ASPIRE was among the top 3 awardees of the Aflatoun’s Partners Resilience Challenge, in recognition of its fantastic work in delivering social and financial education to youth during the COVID-19 crisis. They supported a number of youth-led entrepreneurial initiatives, trained around 640 youths and facilitated the opening of more than 170 formal savings accounts. They also incorporated a Healthy World For Everyone initiative to our financial and entrepreneurial education programmes. Students sowed seeds of trees and plants to raise awareness to environmental issues and learnt how to care for the planet.

ANGLOPHONE AFRICA

There are 83 Aflatoun partners implementing Aflatoun programmes operating in 19 countries in the region.

We held a series of online and offline training to build the capacities of teachers and trainers within the network. In Tanzania, together with Thubutu Initiatives we held a training for teachers using the innovative ‘lunch and learn’ training model to train teachers during lunchtime at school. The programme helped reach 1000 students.

Together with the Ministry of Education and UNICEF in Uganda, we developed a life skills toolkit (skills for learning, employability, empowerment and active citizenship) that will be integrated into the national curriculum. The Toolkit focused on developing 10 key competencies essential for the wellbeing, social and emotional development of adolescents in Uganda. In addition to this, a comprehensive monitoring and evaluation tool and child protection materials were added to the toolkit. After a successful pilot, Aflatoun partnered with Private Education Development Network (PEDN) and trained 60 youth officers who are currently training of 18,000 adolescents (including 15-25% out of school adolescents) through the school clubs in 90 schools and communities in Isingiro district.
Project HOPE Namibia piloted the AflaYouth curriculum before its official launch in 2019. Having reached close to 2500 young women in 2020, Project HOPE Namibia continued with their strong efforts in 2021. Project Hope and Aflatoun are now working on the digitization of the AflaYouth curriculum, using this innovative approach in order to continue delivering the AflaYouth curriculum through distance learning.

Aflatoun supported the Ministry of Education and UNICEF in Angola with the development and implementation of a training manual and programme on transferable and entrepreneurial skills for employment, for adolescents and young people’s transition from learning to earning.

The Economic Empowerment of Adolescent Girls: Scaling Up of Aflateen+ Life Skills and Financial Education programme funded by the Sint Antonius Foundation continued in Mozambique and Zimbabwe. The project aims to socially and economically empower young girls and boys (ages of 14 to 19) by providing them with the social and financial skills, complemented by sexual reproductive health rights necessary to make informed choices about their health, financial situation, and education.

Support by the MasterCard Foundation to Aflatoun for the Elimu Haina Mwisho Skills Development Programme implemented in Tanzania was concluded in 2021 (see page 44). The programme implemented by Kariibu Tanzania Organisation (KTO) provides out-of-school young women with vocational training, secondary education, life and entrepreneurship skills. The programme is carried out in Folk Development Colleges (FDCs) across the country with the goal to create alternative pathways for out-of-school girls through education. The program received formal accreditation from Tanzania’s Institute of Adult Learning and Ministry of Education, Science and Technology (MOEST) waived the FDC entrance and examination fees for programme participants. This ownership by MOEST contributed to the mainstreaming of the programme and its establishment as a viable route into further education for those who wished to pursue this path.

FRANCOPHONE AFRICA

There are 31 Aflatoun partners implementing Aflatoun programmes operating in 12 countries in the region.

The Francophone Africa region prioritized activities aimed at financial inclusion. In July 2021, we organized a webinar on financial inclusion strategies in the region. Later in the year, we co-organized the second edition of the Research days on Financial Inclusion (JRI) under the theme: “Financial inclusion, Crises and Endogenous Development in Africa”. The 2021 edition of the JRI was organized in Dakar, Senegal by Centre Africain d’Études Supérieures en Gestion (CESAG) in collaboration with the African School of Economics (ASE), Aflatoun International, and Développement international Desjardins (DID).

Aflatoun international in consortium with Solidar Suisse and Educo launched a 4 years project called “Promotion of girls access to quality education and vocational training in the Sahel, North, East, and Central-North regions of Burkina Faso” (PROMESSE-FP). The main objective of the project is to improve the access of girls and women in the regions of intervention to a quality education and vocational training system and to decent incomes.

In October and November 2021, Aflatoun international and partners officially launched a 3 years “Empowering vulnerable girls with social and financial skills” project in Senegal, DRC and Benin. Funded by the Nationale Postcode Loterij, this project aims
to socially and economically empower an estimated 26,000 adolescent girls and boys (aged 10-19) in Senegal, Benin and the Democratic Republic of the Congo, as well as scale up Aflateen+ through integration into national curriculum.

In Côte d’Ivoire, we continued scaling up the Aflateen+ life skills and financial Education programme by economically empowering adolescent girls, funded by the Sint Antonius Foundation. The project aims to socially and economically empower young girls and boys (ages of 14 to 19) by providing them with the social and financial skills, knowledge of sexual reproductive health rights plus the necessary information to make informed choices about their health, financial situation, and education.

Still in Côte d’Ivoire, we continued our life skills and economic empowerment training of young people in cocoa-growing communities. The initiative aims to address the employment challenges faced by young people in cocoa growing communities. The partnership between Aflatoun, Inades-Formation, Barry Callebaut, Hershey and Transforming Education in Cocoa Communities (TRECC) provides youth with social, financial and entrepreneurial skills that will enable them to create their own income-generating opportunities and improve their livelihoods in cocoa growing areas. The programme is expected to reach 1,100 young people from ten communities in the regions of Indénié-Djuablin, Nawa and Sud-Comoé.

We continued the implementation of the Aflateen+ programmes funded by Dubai cares in Mali, Niger, and Togo. Our partners in Mali organized The “YELEMA JUMEN?” competition that took place at the ISPRIC University in Bamako, Mali. The contest was organised for young beneficiaries of the Aflateen project in Mali in order to assess the impact of the programme through games and activities. In Mali (Bamako and Kai), over 2,200 young people between the ages of 14-19 benefit from the Aflateen programme, which is implemented in 17 schools and through non-formal groups.

We continued the implementation of the Aflateen+ programmes funded by Dubai cares in Mali, Niger, and Togo. Our partners in Mali organized The “YELEMA JUMEN?” competition that took place at the ISPRIC University in Bamako, Mali. The contest was organised for young beneficiaries of the Aflateen project in Mali in order to assess the impact of the programme through games and activities. In Mali (Bamako and Kai), over 2,200 young people between the ages of 14-19 benefit from the Aflateen programme, which is implemented in 17 schools and through non-formal groups.

There are 59 Aflatoun partners implementing Aflatoun programmes operating in 16 countries in the region.

We started a collaboration with the Credit Suisse APAC foundation to deliver the AflaYouth curriculum in China and the Philippines. During the pilot phase, we organized two contextualisation workshops for adapting the AflaYouth curricula to the local context and the implementation model for our network partners: Be Better (China) and NATCCO (Philippines). Furthermore, we developed an online facilitation manual that outlines the key concepts of online facilitation and guidelines for adapting face-to-face training content to online delivery models.

In December, we organised the Asia Learning Hours event. Attended by 25 Aflatoun Trainers from 10 countries, we introduced our two newest supplements: Social Emotional Learning and Water Sanitation and Hygiene. These supplements are aimed at providing children and teachers with good instruments to combat some of the effects of COVID-19 and accelerate the achievement of the SDGs.

We launched a new project called ‘Gender-sensitive Global Citizenship and Life Skills Education for Youth’. Supported by Education Above All/ROTA, the project aims to socially and economically empower 36,000 adolescent girls and boys (aged 14-19) in Indonesia, Nepal and Pakistan by equipping them with gender-sensitive global citizenship skills and behaviours necessary to make informed choices about their health, financial situation, and education, as well as scale up Aflateen+ through integration into the national curriculum.

We also worked with the UNICEF East Asia and Pacific Regional Office & Generali on a new project “Enhancing Parenting Support Through Financial Literacy: Development of a Financial Literacy Training Module for Parents of Young Children in East Asia and Pacific”. This project aims to develop a Financial Literacy Module (FLM) for parents of young children in East Asia and the Pacific, to ensure that parents and caregivers are equipped with the necessary tools and resources that enable them to provide responsive and nurturing care for children.

In the State of Andhra Pradesh, India along with the Global Alliances for Mass Entrepreneurship (GAME) consortium we developed the Entrepreneurship Mindset curriculum (EMC). After a small-scale pilot for online classes and a cascaded training it is being piloted in 500 schools in support of the state department of education.

**ASIA**

PARTNER SPOTLIGHT

LPPA (ChildFund Indonesia) - Lembaga Pengembangan dan Perlindungan Anak (Organization of Child Development and Protection) is implementing Aflatoun programmes through their partnership with ChildFund Indonesia. During the COVID-19 pandemic, LPPA has demonstrated resilience and continued to provide high-quality social and financial education for children and young people despite the strains of the global pandemic. They organised great initiatives for students such as activities around saving, growing vegetables, and recycling waste. These aimed to engage children with local communities and authorities, and motivate them during these challenging times. In March 2021, LPPA took part in our Partners Resilience Challenge, and was selected as one of the top 3 submissions by the jury.
There are 40 Aflatoun partners implementing Aflatoun programmes operating in 20 countries in the region.

We started the collaboration with UNICEF Uzbekistan on developing a contextualised curriculum, teaching and learning materials on the life skills, financial education, employability and entrepreneurial skills programme, with the focus on NEET youth in Uzbekistan.

We continued to train our broad network of educators, methodologists, and teachers on AflaToT curriculum in Eastern Europe. In October 2021, we held a training of trainers together with the Ministry of Education of Belarus. The training was aimed at improving the provision of early comprehensive care in preschool educational institutions. We also held a Training of regional trainers on the implementation of Aflaatot in Ukraine. 50 methodologists, directors, senior lecturers, teachers, and other representatives of the Department of Preschool Education of the Ministry of Education and Science of Ukraine across its various regions were trained on quality SFE education and social life skills, including the gender aspect.

In November 2021, we participated in the official closing conference for the GIRLACT project in Belgrade, Serbia. The project was launched in November 2018 and implemented by Aflatoun International, Pomoc deci (Children and Youth Support Organisation), EPTO (European Peer Training Organisation) and Partnerë per Femijet. It primarily aimed at supporting girls in Albania and Serbia through social and financial education. The project’s objective was to reduce the existing skills gap amongst young people and girls from a content and methodology perspective, and ultimately empower them socially and economically. It was co-financed by the ERASMUS+ Programme of the European Union, and the programme combined elements of the Aflateen+ curriculum and EPTO’s Peer Training for Youth.

Furthermore, Aflatoun supported SOS Serbia in capacity building in the use of the Life Skills, Employability & Coaching tools via distance learning.

We also continued to grow in our base country the Netherlands. As the schools opened in the Netherlands, we conducted a series of lessons for secondary students of the ages 15-18 within the project with the Municipality of Amsterdam. The series of lessons called ‘Geld maakt gelukkig’ (Money makes happy) was developed to teach students how to become financially self-sufficient at an early age, so that they can avoid financial troubles in their future lives. In 2021, we conducted 105 lessons in 4 schools in Amsterdam and reached 795 students from various social backgrounds. We conducted a 2-day online contextualization workshop for our partner CAMPUS Nederland on contextualizing the Aflatoun curricula for their context and implementation model targeting vulnerable youth.

“Being financial independent is having Freedom to be flexible with my life, and have freedom to do what I want.”

Student, Xplore Agora school Amsterdam, Netherlands

Habitat association also participated in our Partners Resilience Challenge. During the pandemic, they focused their efforts on spreading awareness about digital finance. They ran programmes, trainings and webinars on the use of digital training applications for our volunteer trainers, who spread the training of our “I Can Manage My Money” project for young people, entrepreneurs, farmers, blue collar, employees, women’s cooperatives and retirees. They also organized a new generation online financial festival (FINFEST), under the themes Combating Poverty and Saving. They reached 74,400 people with these events.
There are 49 Aflatoun partners implementing Aflatoun programmes operating in 17 countries in the region.

In 2021, Caritas Switzerland in Syria partnered with Aflatoun to develop an innovative approach for Livelihood interventions in Syria. Caritas started to implement the Life Skills and the Employability programmes (AflaYouth) to equip young people with entrepreneurship and employability skills and enhance local skills and capacities. It is aimed to help the Syrian community shift from humanitarian aid dependency to a community that can generate sustainable income independently.

In Syria, we also worked with the UNICEF country office on the Entrepreneurship and Civic and Economic Engagement in Syria project. We developed a mechanism for youth self-directed learning as well as an educator professional development course.

In collaboration with the World Food Program Regional Bureau for MENA, Central Asia, and Eastern Europe, we held an online Training of Trainers (TOT) on Life Skills and Financial Education for the WFP and their partners’ staff in Egypt, Lebanon, Syria, Yemen, Iraq, and Jordan. The aim was to equip certified trainers in each country with relevant Social and Financial Education and life skills methodologies.

In 2021, our long-standing partner Young Men’s Christian Association (YMCA–Lebanon), and the Armenian General Benevolent Union (AGBU) in Lebanon initiated the project “Empowering Armenians between Globe: AflaYouth”, which is funded by the Calouste Gulbenkian Foundation. The project aims to empower the Armenian youth to help them develop the needed 21-century social, financial, employability, and entrepreneurship skills.

In October 2021, we conducted our first face-to-face training of trainers with INJAZ Jordan after the COVID restrictions were lifted. The training was organized for the supervisors of financial education of the Ministry of Education (MoE) in Jordan. The Training focused on modern teaching methods and the integration of information and communication technology into education for the benefit of students as well as the teachers in the educational sector in Jordan.

We also collaborated with UNICEF in Yemen on conducting a desk review of the history of life skills implementation in Yemen. This included consultations with the Ministry of Education and partner organizations. We developed a full LSCE curriculum comprised of two packages for age groups 12 – 14 and 15 – 19 and an aligned training manual was developed.

We also developed comprehensive Teacher Training Modules and conducted the Training of trainers together with the Ministry of Education of Libya and UNICEF Libya. 400 teachers from the Ministry of Education and civil society organisations (CSOs) were trained on distance learning, child-centered pedagogy, and inclusive education.

“Through this first step of preparing capable and empowered 400 teachers as certified Training of teachers from all over the country. We can say now that we are on the right path in implementing solid and integrated educational steps towards enhancing the overall education sector in Libya” — Dr. Masauda Ali Elaswed, Undersecretary of the Ministry of Education for Educational Affairs.

Our partner in Jordan INJAZ contextualized the AflaYouth curricula for the Jordanian country context to provide Financial Literacy, Employability and Entrepreneurship education for university students. They added contextualized student and volunteer books in Arabic. Their initiative was funded by OXFAM under the Danish Arab Partnership Program DAPP.
THEME
FOSTERING EMPLOYABILITY SKILLS FOR YOUTH

The Covid-19 pandemic and resulting economic fallout caused financial hardship for many people. In 2021, a rapidly growing number of Aflatoun partners were focusing on employability and entrepreneurship skills for youth in order to further the economic empowerment of young people despite the hardships posed by the crisis. In addition, several Governments and multilateral agencies approached Aflatoun for technical assistance in this area.

In celebration of World Youth Skills Day (15 July, 2021), Aflatoun International launched a joint campaign with the education technology non-profit Solve Education! on building awareness about youth skills and employment. Together we organised a webinar that gathered partners, governments, NGOs, funders, and education experts to discuss youth employability, the digitisation of employability skills and the importance of skill-building for youth empowerment in Indonesia, India, Sri Lanka, Malaysia, Philippines, and Nigeria.

In India, together with the Global Alliance for Mass Entrepreneurship (GAME) consortium, we developed the Entrepreneurship Mindset curriculum (EMC) for Andhra Pradesh. After a small-scale pilot for online classes and cascaded training, the programme has been piloted in 300 schools and is ready for roll-out across all districts in the state.

We also developed the Youth Employability and Entrepreneurship Skills (YES) programme for adolescents and youth in Tajikistan and Kyrgyzstan to develop their knowledge, skills and attitudes in order for them to reach their career goals. The programme consisted of 17 sessions through which participants develop their Business Model Canvas and acquire employability skills. An aligned training manual was developed and the trainers were trained.

In partnership with UNICEF Tajikistan, we also developed a Career Counselling programme that will provide curricular content across five grades (grades 5-9) as well as stand-alone modules for youth (aged 15-24) in formal and non-formal education settings. The programme will use active-learning methods and will be adapted for offline, online and blended approaches to learning. The Career Counselling Program is a comprehensive program focusing on countrywide career program for school-to-work transition for school and outside-of-school Tajik youth.

Mouhannad Sarhil, 28, is one of the beneficiaries of our AflaYouth programme with Caritas Syria. He graduated in Mechatronics Engineering but had difficulties finding a job opportunity in the labour market afterwards. Then, he registered for the Livelihoods Project 2021 with Caritas Syria and has since faced fewer obstacles on his way. The weeks of training on Life Skills and Employability, and a vocation training on CNC (computer numerical control) machines allowed him to enter the job market more comfortably and move towards a professional career. Sarhil is now confident and explains different techniques used in the laser design facility, where he works now, sharing what are the steps necessary for him to continue his career.

“In the Life skills course, I learnt to find a solution to any problem I face in my life. In the employability course, I learnt how to enter the labour market.”
In January 2021, Aflatoun International and the Central Bank of Libya signed a 4-years partnership MOU that aims for the national integration of the financial education programs in Libya. In line with this partnership, the Central Bank of Libya updated its national strategy to ensure the integration of Financial Education and established the Libyan Center for Financial Education to act as the technical hub for the provision of Financial Education in Libya.

In 2021 we signed a tripartite Memorandum of understanding with the National Institute for Education Development (INDE) of Mozambique and Aflatoun Network Partner Wona Sanana. This MoU allows all parties to collaborate on promoting life skills, financial education and equipping adolescents in Mozambique with relevant 21st century skills. Aflatoun curricula are expected to be integrated into the ongoing national curriculum review initiative.

During the year Aflatoun contributed to the development of the CEMAC Regional Financial Inclusion Strategy through the Thematic Working Group dedicated to financial education and consumer protection in the six CEMAC countries (Gabon, Cameroon, the Central African Republic, Chad, the Republic of the Congo and Equatorial Guinea). The contribution of Aflatoun is to advocate for national integration at the policy-design level.

We continued to work with the Ministry of Education of Ecuador. We held a series of workshops as part of the integration of Social and Financial Education contents in the National Curriculum. Among the participants of the workshop were representatives of the Central Bank of Ecuador, Superintendence of Popular and Solidarity Economy, Internal Revenue Service, and National Financial Corporation.

Following the signing of the MoU with the Ministry of Education and the Central Bank of Haiti, we held two introductory workshops to identify priorities and determine the parameters of the pilot.

Under the new project Gender-sensitive Global Citizenship and Life Skills Education for Youth we held national integration workshops and stakeholders meeting in Indonesia, Nepal, and Pakistan. The representatives of the ministries of education, and local municipalities of the respective countries participated in these events.

OUMOU DIAMARA: I LEARNED TO WORK IN A TEAM

"Before the Aflateen programme, I didn’t like working with other students. But since we started Aflateen, I am now much more comfortable working with others. It’s very important to have the opinions of other classmates on something!"

EDUCATION WITHOUT LIMITS:
EMPowering ADOLESCENT GIRLS
THROUGH SOCIAL AND FINANCIAL
EDUCATION

ESTHER

In 2021, we concluded the three-year Elimu Haina Mwisho Programme implemented in Tanzania in order to provide out-of-school young women with vocational training, secondary education, life and entrepreneurship skills. This programme was funded by the MasterCard Foundation and implemented by Karibu Tanzania Organisation (KTO) in collaboration with the Ministry of Education, Science and Technology (MoEST). The programme was carried out in Folk Development Colleges (FDCs) across the country with the goal to create alternative pathways for out-of-school girls through education. As a result, women gain the necessary skills to become either formally or self-employed or prepared to further their education.

Elimu Haina Mwisho is one of the programmes aimed at girls empowerment that Aflatoun has been carrying out. Our Aflateen+ programme is a gender-sensitive programme that has combined Aflatoun’s core social and financial education curriculum with important sexual reproductive health and gender content. It aims to socially and economically empower girls especially the most vulnerable. The rollout of the Aflateen+ programme for future economic empowerment of girls across different countries is supported by Dutch Postcode Lottery, ROTA, Ministry of Foreign Affairs of the Netherlands, Stichting Sint Antonius, Echidna Giving, Dubai Cares, and Credit Suisse.

Through the Skills Development Programme Elimu Haina Mwisho, 41 FDCs were reached and 1,200 young women were empowered. The programme has been accredited by MoEST and it will be rolled-out to all 54 FDCs in the country next year.

“I chose masonry because I loved it and I don’t feel bad as a girl doing it. I advise other girls to join this course. They always say it’s hard, but if I made it they can also do it. Every girl is able to do any kind of work that males can, sometimes we, women, undermine ourselves but we can do anything.”

Esther Mwikwabe

After giving birth to her child, Esther followed the Elimu Haina Mwisho programme for the main secondary education courses. She also decided to take masonry as an extra course, even though she was the only woman in the class. Esther’s journey is an inspiring example for other young women that were in the same situation. Esther was employed using her excellent masonry skills, and she knows she will work in this field after her studies. She was able to resume her education, find out about her passion, and acquire the necessary skills to pursue her career without thinking about the judgement of others.
Peace always wanted to be a traffic police officer. However, when she found out about her pregnancy, she had to drop out of school and was rejected by her community. Through the Elimu Haina Mwisho programme, Peace was able to follow practical courses. Studying at the FDC gave Peace the feeling that she restored her reputation. People in her village were surprised that she resumed her studies, which made her feel empowered and gave her joy and pride. Thanks to the social and financial education that she received during the Programme, Peace has opened her own second-hand clothing shop, which allows her to rent a room for herself and her child, and to be financially independent.

“Young women can still stand and rise again, because education has no limit”

— Peace Exavery
HOW WE OPERATE

Transparency is both important to us and key to a healthy organisation, and we cannot achieve our mission without the trust and support of Aflatoun staff, the Board and supporters. Discover our organisational structure below.

Our CEO is Roeland Monasch (roeland@aflatoun.org); he is listed as company director for Aflatoun International at the Trade Registry of the Chamber of Commerce.

DIRECTORS OF AFLATOUN

All directors are responsible for their own functional domain. Together with the CEO, Roeland Monasch, who is the sole statutory director:

- **Lama Yazbeck**, Deputy CEO
 lama@aflatoun.org
  Started May 2021
- **Abdullah Alam**, Director of Education & Innovations
  abdullah@aflatoun.org
  Started July 2022
- **Edward C. Greene**, Director of Finance and Operations
  edward@aflatoun.org
  Until June 2021
- **Hassan Mahtat**, Director of National Policy and Strategies
  hassan@aflatoun.org
  Until Dec. 2021
- **Nic Bishop**, Director of Finance and Operations
  nic@aflatoun.org
  Started July 2021
- **Rediet Abiy**, Director of Programmes
  rediet@aflatoun.org
  Until July 2021
- **Wendy Nagel**, Director of Aflatoun Nederland
  wendy@aflatoun.org
  Until July 2021

FOUNDER: Jeroo Billimoria

INTRODUCING NEW DEPUTY CEO: LAMA YAZBECK

My name is Lama Yazbeck and I am the Deputy CEO at Aflatoun International. Previously, I was the CEO of Himaya, a leading NGO in Lebanon on child protection, serving annually more than 100,000 individuals through its different programs and departments. During the 7 years, I worked on restructuring Himaya and implement a quality management system in order to increase productivity and efficiency. The organization grew from 25 to 120 employees under my leadership.

I joined Aflatoun in May 2021 right at the time that Aflatoun started the consultation process to develop its new strategy for 2022-2026. I was heavily involved in the process and this allowed me to appreciate the importance of social and financial education. It is clear that social and financial education can play a big role in protecting children and improving their lives. It teaches them about their rights and responsibilities, spending and saving, and by acquiring these skills, it will allow them to make informed decisions about their lives, be more independent and plan for a better future.

Sadly, not many people know about its importance and I was one of those people. This is why we have agreed that it is crucial for Aflatoun to prioritize communication and advocacy about its importance with decision-makers around the world. By doing so, we make sure that more and more children have access to these essential skills.

It’s been only 9 months since we launched the new strategy, and I am happy to say that in this short period of time, we were able to get the attention of many new partners, ministries around the world, and decision-makers at an international level. This does not mean that we achieved our goal, this only means that we are just getting started. Currently, Aflatoun reaches millions of children around the world through our partners and through the national integration efforts with several ministries around the world, but many more children still lack access to social and financial education and for those children, we still have a lot to do.

With a small and dedicated team, we are able to develop good quality educational resources and operate at scale, this is what makes Aflatoun Unique: its team and its reach through the network of partners.

If we are successful, in 5 years’ time social and financial education will be considered as important as basic literacy and numeracy and will be discussed and prioritized by all key stakeholders from different sectors around the world.

The governance of Aflatoun International is laid down in the Articles of Association, providing for a two-tier board structure. The day-to-day management is in the hands of the CEO and the supervision in the hands of the Supervisory Board. The supervisory duties of the Supervisory Board are clearly separated from the operational responsibilities of the CEO, the leadership team and the staff. The Supervisory Board meets at least 4 times a year and sets the overall guidelines for strategy and policies. The CEO attends all Supervisory Board meetings, unless the Supervisory Board decides otherwise. The CEO and the Directors of the different departments form the management team, that meets weekly to discuss executive matters.
GLOBAL NETWORK BOARD

Our Global Network Board is the advisory board that advises on all major strategic decisions with an impact on the Aflatoun network. It is comprised of one representative from each of our regions, 6 in total, 1 representative from Meljol, the organization that initially conceptualized the Aflatoun approach in India and 1 special representative from China. The Global Network Board members are elected by partners from their respective regions. Each member serves a 2-year term.

▶ Muhammad Jarrah, MENA Regional Representative
▶ Brian Lariche, Asia Regional Representative
▶ Patricia Fafa Formadi, Anglophone Africa Regional Representative
▶ Jan Orlovsky, Europe & Central Asia Regional Representative
▶ Ana Yris Guzman, Americas Regional Representative
▶ Félix Yao, Francophone Africa Regional Representative
▶ Alan Wang, Special Representative for China
▶ Rishad Byramjee, Special Representative for Meljol

EMPLOYEES

Aflatoun is proud to have a diverse staff, with 38 employees (incl. Directors) and 8 long-term consultants from 24 countries (as of 15 July 2022). With the team representing all regions in which Aflatoun programmes are implemented, we can ensure that our programmes and partner support are contextualised to each socio-cultural context.

EMPLOYEES (AS PER 15 JULY 2022)

PROGRAMMES DEPARTMENT

▶ Shirin Husseini, Head of Programmes
▶ Cristina Peña, Senior Programme Manager – Americas
▶ Iari Vehuliza, National Curriculum Integration Advisor
▶ Lea Rauh, Network Management and Project Officer – Francophone Africa
▶ Lucky Lumingkewas, Senior Programme Manager – Asia
▶ Mohamadou Badiaga, Programme Manager – Francophone Africa
▶ Mozna Abumery, Programme Manager – MENA
▶ Philomena Darku, Programme Manager – Anglophone Africa
▶ Sabrina Zebinger, Programme Communications & Engagement Officer
▶ Saida Mamadjonova, Programme Manager – Europe & Central Asia

EDUCATION DEPARTMENT

▶ Niveditha Uthrapathi Shakila, Education Manager
▶ Chandni Mehta, Education Specialist
▶ Gabriela Gutierrez, Curriculum Officer

OUR SUPPORTERS

Our achievements in 2021 can largely be attributed to the generous contributions from our donors and in-kind contributors.

THANKS TO THE VALUABLE SUPPORT RECEIVED FROM A WIDE RANGE OF INSTITUTIONAL, CORPORATE AND PHILANTHROPIC ORGANISATIONS, AFLATOUN INTERNATIONAL WAS ABLE TO CONTINUE ITS MISSION TO EMPOWER CHILDREN AND YOUNG PEOPLE GLOBALLY, ESPECIALLY GIRLS, THROUGH SOCIAL AND FINANCIAL EDUCATION.

AGILITY, for their support to develop and translate “AflaYouth” financial literacy and entrepreneurship curriculum into Arabic, French, and Spanish, which gives students, ages 16-24, access to both online and in-person training, support, mentoring and learning during their transition into the formal labor market, or as they launch an entrepreneurial career.

ARVATO, for their support in organizing an online training of trainers for our partners in Latin America and the Caribbean region.

CREDIT SUISSE INTERNATIONAL, with whom we have been working with since 2014, and who has been crucial in enriching the access and quality of financial education for girls and young women, in Brazil, China, India, Sri Lanka, Tanzania, and Rwanda.

CREDIT SUISSE APAC FOUNDATION, for their support to Aflatoun and partners in the provision of financial literacy, employability and entrepreneurship skills to youth in China and the Philippines as they transition into the job market.

DIORAPHTE FOUNDATION, who supported Aflatoun in the development of digital courses to advance digital learning for educators, including teachers, facilitators, and trainers, participating in Aflatoun’s programmes in low-resource settings.

Dubai Cares, with the support of whom we have been implementing the Aflateen+ programme in Togo, Mali and Niger since 2019, as well as scaling the initiative through national curriculum integration and advocacy.

ECHIDNA GIVING, continues to assist Aflatoun International in rolling out Aflateen+ globally, and has been crucial in supporting core functions of the organization ensuring we can further build the network, despite the COVID-19 pandemic.

CREDIT SUISSE APAC FOUNDATION, with whom we are working with to ensure that by 2025, 20,000 girls and young women in Burkina Faso have acquired safe access to sexual and reproductive health and rights and life skills and financial education.
ERASMUS+ PROGRAM, for their multi-country support to build the capacity of organizations in the field of youth – Empowering Girls to be Socially and Financially Strong Actors (Albania, Serbia, Belgium, Netherlands).

FONDATION BOTNAR, supported the development of the AflaYouth curriculum and the roll-out of a management information system. Furthermore Botnar allowed Aflatoun to organize a large number of stakeholder meetings, country-level and regional trainings and advocacy events.

GENERALI/THE HUMAN SAFETY NET, supporting a review of 25 programmes and their approaches towards financial education for parents. The study provided the evidence and rationale for the importance of financial education in early childhood parenting programmes.

HERSHEY COMPANY and JACOBS FOUNDATION, who are scaling up our efforts under the Transforming Education in Cocoa Communities Initiative to support youth employment and quality life skills education for young people in rural cocoa-growing communities in Côte d’Ivoire.

MASTERCARD FOUNDATION, collaborated with Aflatoun International on second chance education for young out-of-school mothers in Tanzania, including secondary education, vocational training, life and entrepreneurship skills.

NATIONALE POSTCODE LOTERIJ, who has been a key supporter of Aflatoun since 2010, facilitating our core work as our movement continues to grow across the globe. The NPL is also funding a key intervention in Benin, Senegal, and DR Congo, aiming to socially and economically empower adolescents, particularly girls, through a gender-sensitive life skills and financial literacy programme.

REACH OUT TO ASIA, who is supporting our programming in Ivory Coast, Mozambique, Zimbabwe, Indonesia, Nepal and Pakistan which aims to equip youth (aged 14 – 19) with global citizenship skills and behaviors through grassroots implementation and national integration.

SINT ANTONIUS STICHTING, who supports the roll out of our gender-sensitive life skills and financial education for adolescent girls and boys in Côte d’Ivoire, Mozambique and Zimbabwe, including an important research component.

SKOLL FOUNDATION, who has continuously provided crucial support for ongoing relief efforts related to COVID-19, including the development of digital skills for learners and teachers, as well strengthening the capacity of our partner network and teachers.

UNICEF, who continues to be a key partner on initiatives around the world. Aflatoun is one of the civil society partners of UNICEF MENA Regional Office working towards the operationalization of the transformative Life Skills and Citizenship Education (LSCE) initiative. Aflatoun has provided technical support to UNICEF country offices, including Jordan, Syria, Sudan, Egypt, Gulf Area, Libya, and Yemen. Aflatoun is also currently working with UNICEF country offices in Africa (Uganda, South Africa, Ethiopia, Eswatini, Sierra Leone, and Angola), Central Asia (Tajikistan and Uzbekistan), East Asia and Pacific Regional Office, as well as the UNICEF Global Office in New York, on the revision, curation and development of life skills and financial literacy programmes and training (Learning Passport).

VITOL FOUNDATION, who are central to implementing our ‘systems change approach’ through the integration of social, financial and entrepreneurship education in primary and secondary schools in Costa Rica, DR Congo, Ecuador, and India.

Aflatoun also welcomes the collaboration with the Aga Khan Foundation, Alliance for Financial Inclusion, Amsterdam City Council, Meemain, Ministry of Education-Jordan, Ministry of Youth-Namibia, Matt McDonald, Old Mutual, UNCDF, UNDP, and USAID who engaged Aflatoun as technical partner to assist in their programmes to reach children with social & financial skills.

| Addition (deduction) to (from) destination fund | - | - | - |
| **Total appropriation of the balance** | 521,341 | 159,602 | 318,318 |

* The comparative figures have been adjusted. Refer to the note “Change in accounting principles” for disclosure.
Throughout the world, many children daily face hardships that are often connected to poverty. Stichting Aflatoun International provides children with social and financial skills and insights that not only will support them to deal with these adversities but also prepare them for better planning the life ahead of them. Stichting Aflatoun International is a foundation located in Amsterdam.

Stichting Aflatoun International was founded in 2005, its mission is “Ensuring access to high quality, inclusive, child-centered social and financial education for all children and young people, especially the most vulnerable.”

To achieve our mission, until 2021 the organization’s budget was structured along the three pillars of the organisation:

- **Priority Area I** (previously: Concept) - Advocate for social & financial education for all children, especially the most vulnerable.
- **Priority Area II** (previously: Programmes) - Quality delivery of social & financial education.
- **Priority Area III** (previously: Network) - Accelerate scale-up of social & financial education.

Any further supporting strategies to perform these activities are described within the operational narrative included in the Management Report for the year.

**ACCOUNTING PRINCIPLES**

Aflatoun applies the Dutch Accounting Standard RJ 650 (Fund Raising Organizations). Accounting policies per item of the financial statements are set out in the summary of significant accounting policies.

**CHANGE IN ACCOUNTING POLICIES**

Aflatoun has re-assessed the accounting policies of consultancy income recognition. Previously, this type of income was conservatively recognized only after the in the consultancy contract agreed milestones were achieved and agreed by the donors.

Now the consultancy income is becoming a larger share of Aflatoun’s total income, Aflatoun believes that a match between incurred consultancy expenses and recognized consultancy income provides a better true and fair view to users of the financial statements and is more aligned with the guidelines for external reporting as issued by the Dutch Accounting Standards Board (‘Raad voor de Jaarverslaggeving’), specifically section RJ 221.3. As a result, a work in progress balance has been added to the balance sheet for the recognized but as yet unbilled consultancy revenue.

**ALLOCATION OF EXPENSES**

The expenses recognized in the reporting year are allocated to the strategic objectives, to our fundraising activities or to operational and administrative costs. The allocation has been detailed in the schedule Allocation of expenses to objectives.
EMPLOYEE INFORMATION

In 2021, Aflatoun employed on average 32 employees (27.4 FTE's) (2020: 31 (26.8 FTE's)), divided as follows:

<table>

No members of the Supervisory Board received any remuneration for the year ended December 31, 2021. Aflatoun did not reimburse the travel expenses of regional board members made in order to participate in board meetings during 2021 (2020: nil). Further information on the Board has been recorded in the separate operational narrative for the year.

Per the 1st of August 2015 the CEO started with an indefinite contract for 40 hours per week.

The following costs are derived from the salary administration and comprise the cost of the executive director for the year:

<table>
<thead>
<tr>
<th>in EUR</th>
<th>2021</th>
<th>2020</th>

</tr>
</tbody>
</table>

The gross salary in 2021 per month was EUR 7,471 (including 8% holiday allowance). This is in line on the so called "Wijffels code" for remunerations for directors working in the non-profit sector which takes into consideration the size, budget and complexity of the organisation.

This is also within the range of the maximum yearly salary of EUR 209,000 (1 FTE/12 months) according to the “Regeling beloning directeuren van goededoelenorganisaties”. According to this regulation the salary cost of EUR 110,727 falls within category G with 371-410 points (maximum is category J with 491 points).

During the year there were on average 6 volunteers/interns active (2020: 10).

</table>

For the years 2020-2024 the Nationale Postcode Loterij offered a contribution. The exact amount is yearly based on the income of the lottery. For 2021 the contribution has been confirmed in March 2022 to be EUR 500,000 and has been received in March 2022 by Aflatoun.

Besides this contribution Aflatoun received also an extra grant of EUR 1,950,000 for the years 2021-2023. Of this amount EUR 1,443,000 is to spend on projects and EUR 507,000 is to cover salaries, operational and administrative expenses. During 2021 in total EUR 265,614 has been used of the extra grant.

OTHER INCOME (NOW-SUBSIDY) (9)

<table>
<thead>

</thead>
<tbody>
<tr>
<td>NOW-subsidy</td>
<td>(55,457)</td>
<td>574,445</td>
</tr>
</tbody>
</table>

During the COVID-19 outbreak early 2020 Aflatoun applied for the NOW1- and NOW2-subsidy from the Dutch government. This is the economic relief offered to companies that experience a substantial decrease in revenue during the subsidy period (March–September 2020), to offset salary cost and avoid terminations. With this support Aflatoun avoided to have to scale down significantly across the organization with serious risk of having to halt essential operations and lay-off staff.

During 2021 final calculations were made. It turned out that Aflatoun received more in advance than entitled to. This final amount of the subsidy was set at EUR 318,988. This results in a correction of the subsidy of EUR 55,457 to be presented in 2021. Per December 31, 2021 an amount of EUR 54,238 is still payable and settled with the government during 2022.
**FORECAST FINANCIAL POSITION**

Income in 2022 will increase over 2021 to EUR 6.2 million due to increase in projects and consultancies already secured for the year. A strong driver of this increase is the increasing demand driven by donors for Aflatoun’s services. Aflatoun intends to significantly grow Project income and expects regular income recognition on a monthly basis.

The recognition of income from projects is highly dependent on the timing of implementation of programmes due to the need for close proximity of groups of people to implement which has not always been possible during COVID-19. There will clearly be knock on effects from the COVID-19 pandemic, the easing of which is likely to be slower in the majority of the geographical areas where Aflatoun is present. Nevertheless Aflatoun continues to expect increase of commitments from donors throughout the course of 2022.

**PROCEDURES FOR EVALUATION OF FINANCIAL POSITION**

Aflatoun’s Supervisory Board currently has a finance committee that meets with the Director of Finance and Operations periodically to evaluate the financial position of the organization.

Twice a year (every half year) Aflatoun holds a global board meeting and four times a year (every quarter) a supervisory board meeting. In these board meetings the financial performance is reflected on the agenda and the variances in actuals versus budget are discussed. In addition to this, the future plans for the remainder of the year (and further years) are discussed during these board meetings.
POLICIES ON RESERVES

Aflatoun wants to ensure sustainability of the organization so that its international network is ensured. Therefore, Aflatoun has created a Continuity Reserve which seeks to grow to a level sufficient to fully cover operational and programme costs for a period of 3 months (i.e. maintain a General Reserve of 25 per cent of total annual expenditure). This is based on a conservative estimate of the amount of time taken to secure funds. As a minimum, Aflatoun seeks to not allow the general reserve to fall below 25 per cent of institutional costs (staff plus overheads). Where the target level of reserves is exceeded, the Management will generally present proposals to the board as part of the annual budget or throughout the year to draw down on the General Reserve for strategic one-off investments.

COMMUNICATION WITH KEY STAKEHOLDERS

Aflatoun’s key stakeholders are the local partner organizations that implement its programmes around the world and the donors that support Aflatoun’s work. Communication with partners is coordinated by the relevant Regional Programme Manager, drawing on the support of the Regional Representative as needed.

Communications with new donors is coordinated by the resource mobilization team and communications with existing donors is managed by the relevant Project Managers and budget holders.

REMUNERATION OF THE SUPERVISORY BOARD

The members of the Supervisory Board did not receive any remuneration for the year ended December 31, 2021.

ENVIRONMENT

Caring for the environment and fostering sustainable development is a core part of Aflatoun’s ethos and programmatic work, including a commitment to minimizing waste and recycling.

PERSONNEL POLICIES

Aflatoun employee policies are in line with legal requirements and good practices in the Netherlands, and are outlined in the Employee Manual, including the employee code of conduct, whistle blower and child protection policy. During the year Aflatoun embarked on revising all of its policies and developing additional ones as per the needs identified.
VOLUNTEERS AND INTERNS
Aflatoun relies on the assistance of a number of volunteers and interns to support the team with major events. Aflatoun provides volunteers and interns with a small stipend to assist with the cost of travel associated with their assignments.

CORRUPTION AND FRAUD
Aflatoun has a strong set of internal controls designed to mitigate the risk of fraud and corruption. These include a Finance Manual outlining policies and procedures related to approval and documentation of expenditure and payments, an anti-money laundering, terrorism financing and sanctions policy, an employee code of conduct, and a whistle-blower policy including a duty to report, and protections for whistle-blowers.
